### Veksthuset for verdiskaping

Doctoral Reserach Fellow Tony Tan  
Det matematisk-naturvitenskaplige fakultet  
Matematisk institutt  
Postboks 1053 Blindern  
0316 Oslo

Dato: 12. april 2023

### Letter of commitment from the UiO Growth House – seed funding 2023

The allocation process for applications for Seed funding I + II at the Growth House 2023 has been completed. 33 approved applications were received by the deadline of 14 March 2023.

Your application related to the project "Post-marking analyses using automated Guttman charts" has been granted with a commitment of NOK 50 000.

The funds shall be used in accordance with the announcement text, budget and project description in the application and the requirements in this the letter of commitment.

**It is requested that the account string for payment be sent to [innovation@growthhouse.uio.no](mailto:innovation@growthhouse.uio.no) as soon as possible.**

One of our innovation advisers will reach out to you for further follow-up and collaboration.

You will have to provide a short final report for the Growth House to show how the innovation fund has been spent and what results you have achieved. We will provide a webform for this. Please remember to state that the innovation project is supported by the Growth House, the University of Oslo in any mention of the project.

Congratulations, we are looking forward to fruitful collaboration!

Kind regards,

  
Hilde I. Nebb, Professor

Innovation Director Growth House
